

Paint: Snowbound and Mindful Gray; both from the Liveable Luxe Color Collection from HGTV HOME™ by Sherwin-Williams. Now available at Lowe's; painton.com. **Countertop and Shower Trim:** Kolams Quartz; wilsonart.com. **Floor Tile:** Blendart in White, and **Shower Tile:** 6th Avenue Hexagon; both from walkerzanger.com. **Shower Fixture:** Weymouth in Brushed Nickel; moen.com.

The door to the new master bath is located along this once underutilized wall.

CREATED A MASTER BATH

Jami and Page worked with builder Tim Franklin of Franklin & Associates Design/Build, who took the space from two existing closets (one in the master bedroom and one in daughter Lila's room) to carve out the much-needed master bath. To keep the small space feeling bright, the editors painted beadboard a crisp white (Snowbound) and walls a cool gray (Mindful Gray), which was chosen by CL readers from

the Liveable Luxe Color Collection from HGTV HOME™ by Sherwin-Williams. Topped with a Kolams quartz countertop from Wilsonart (another reader pick), a freestanding vanity reinforces the airy feel while a wall-mounted brushed nickel faucet (Weymouth by Moen; moen.com) frees up limited counter space. Inspired by the rough-hewn wood found throughout the historic home, porcelain plank floors (yes, they're porcelain, not wood!) are easy to care for and pair with the shower's white hexagonal tiles for a fresh but not-too-modern feel. Designed by a local woodworker, the distressed cherry wood medicine cabinet reins in bathroom essentials.
